17 May 2018

ITG4TU Project:

This project is aimed to gather a set of researchers from four universities with a wide experience in developing and deploying ITG framework models from 3 different countries (Spain, Germany and Norway) to develop, adapt and test a new ITG framework to be implemented in HEIs in Tunisia. Expected results of this project include a better governance model for IT in Tunisian HEIs as well as an overall modernization of the governance processes for HEIs and a contribution of the cooperation between EU and Tunisia.

University of Balearic Islands

The University of the Balearic Islands is a Balearic Spanish university, founded in 1978 and located in Palma on the island of Majorca.

Main Activities during the visit

Upon our arrival on Monday September 8th, we were welcomed by Pr Ricardo PALACIOS.

By Tuesday, we had a meeting with Pr PALACIOS. This meeting was the opportunity to introduce ourselves as well as research activities. This meeting was also the occasion to have a clearer idea on ITG4TU (Information Technology Governance for Tunisian Universities) project. Pr PALACIOS. The case of governance and management of the Østfold University was presented and discussed.

In the afternoon, we got individual meetings with Pr PALACIOS. So, the issue of future works were discussed in terms of co-supervision of Phd thesis and collaboration for joint work to answer call for research projects.

In addition, we also had the opportunity to meet the Dean of Østfold University. The Dean welcomed us and present a sketch of the faculty as well as the different research activities

Conclusion

The visit the Halden was of benefit to the useful insight of ITG4TU project and how we can contribute to its success.
